UNIVERSITY OF SRI JAYEWARDENEPURA - FACULTY OF APPLIED SCIENCES
BSc Degree First Year First Semester Course Unit Examination – October/November 2022
DEPARTMENT OF ENGLISH LANGUAGE TEACHING

58

ENG 101 2.0 Compulsory English (Scientific Communication)

Time: Two (02) hours

No. of questions: 10

No. of pages: 06

Total marks: 100

Answer ALL questions

Index Number:

1. Complete the blanks using the most appropriate **adverb** from the box given below. There is one word extra. (05 marks)

shortly	carefully	rapidly
anxiously	neatly	extremely

- i) The report must be read.....to evaluate the performance of the employees.
- ii) She was.....looking at me for my reply.
- iii) The teacher spotted the errors.....
- iv) The librarian was.....angry because some of the students were talking in the silent area of the library.
- v) The train will be arriving.....

2. Read the sentences and choose the synonyms from the box below for the adjectives given in **bold print** in the following sentences. There is one word extra. (05 marks)

sophisticated	tiresome	scary
funny	awful	satisfying

- i) Spending a night in the jungle was a **terrifying** experience.
- ii) Her jokes are absolutely **hilarious**.
- iii) Learning a new computer program can be a **tedious** process.
- iv) Many people at present are quite attracted to a **modern** life-style.
- v) It was a **dreadful** weather. Nobody could go outside.

3. In the following sentences, **underline** the verb that matches with the noun in bold print.

(05 marks)

- i) The Principal (did, made, told) an **announcement** about our sports meet.
- ii) We are extremely sorry for the **inconvenience** (made, done, caused) by us.
- iii) The Minister (gave, told, made) his **approval** for the new building.
- iv) Nimal (did, had, asked) an **argument** with his friend.
- v) The Professor (performed, conducted, made) a **seminar** on "How to improve your English?"

4. Select the most suitable word from the box and fill in the blanks. There is one word extra.

(05 marks)

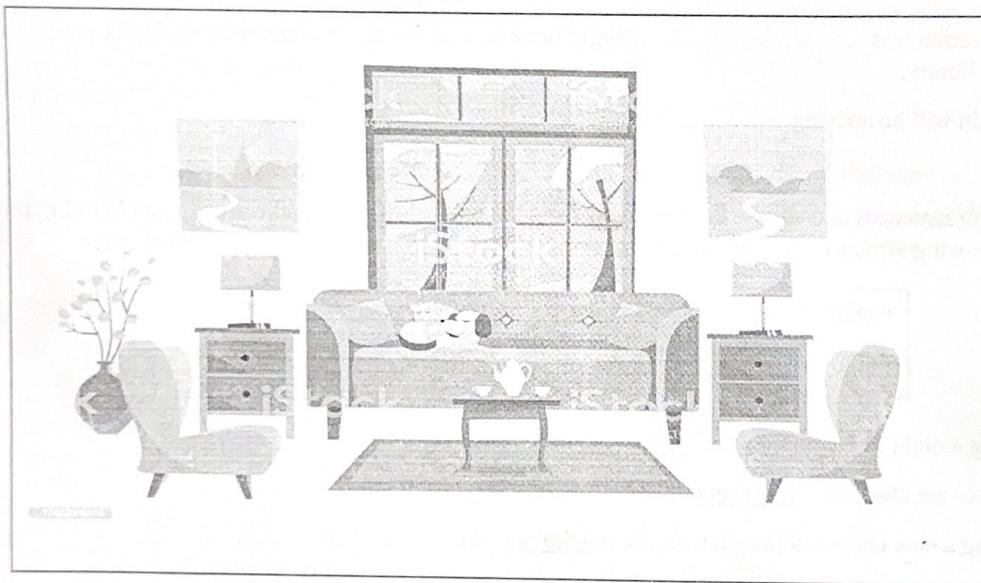

amphibians	smuggled	excessive
protected	ultimate	lucrative

Today, sale of wildlife, animals and plants, has become a very (1).....business and worth over billions of dollars. Millions of animals and plants are (2).....from country country as they have a ready market and (3).....demand in most developed countries. People are interested in fur-skins of animals, hides, horns, tusks, feathers of birds, their eggs and also ornamental plants and especially herbal plants. These things are detected and hunted from developing countries in Africa, Asia and South America. The (4).....result of this international trade of wildlife is that over 13,000 known species of mammals and birds, as well as thousands of reptiles, (5).....fish, millions of invertebrates and some 250,000 species of flowering plants are today facing total extinction.

5. Write five sentences describing the picture given below.

(05 marks)

- Use five different prepositions in the sentences.

-
-
-
-
-

6. Form questions to which the underlined words are the answers. One has been done for you.
(10 marks)

Ex: He wrote an essay for the competition.

What did he write for the competition?

1. Birds migrate to warmer countries during winter.

.....?

2. The group of researchers will go abroad on 12th January 2020.

3. She studied about ocean biodiversity because she was interested in marine mammals.

4. Merchants have used Silk Road to take silk westward.

5. Mr. Perera visits his daughter in New Zealand once a year.

7. **Turn** the following sentences from active voice to passive voice. (10 marks)

i) Ramesh didn't submit the assignment last week.

ii) The employee will complete all his work on time.

iii) The teacher is teaching the lesson effectively.

iv) Charles Dickens had written many novels.

v) Does this organization help poor people?

8. **Make meaningful sentences** using the following words. You may use the verbs in any tense. Do not change the form of the nouns, adjectives and adverbs. (10 marks)

develop	information	educate	achieve
pandemic	quietly	valuable	
attractive	documents	efficient	

i)

ii)

iii)

iv)

v)

vi)

vii)

viii)

ix)

x)

The Iron Bridge

The Iron Bridge was the first of its kind in Europe and is universally recognized as a symbol of the Industrial Revolution.

- A) The Iron Bridge crosses the River Severn in Coalbrookdale, in the west of England. It was the first cast-iron bridge to be successfully erected, and the first large cast-iron structure of the industrial age in Europe, although the Chinese were expert iron-casters many centuries earlier.
- B) Rivers used to be the equivalent of today's motorways, in that they were extensively used for transportation. The River Severn, which starts its life on the Welsh mountains and eventually enters the sea between Cardiff and Bristol, is the longest navigable river in Britain. It was ideal for transportation purposes, and special boats were built to navigate the waters. By the middle of the eighteenth century, the Severn was one of the busiest rivers in Europe. Local goods, including coal, iron products, wool, grain and cider, were sent by river. Among the goods coming upstream were luxuries such as sugar, tea, coffee and wine. In places, the riverbanks were lined with wharves and the river was often crowded with boats loading or unloading.
- C) In 1638, Basil Brooke patented a steel-making process and built a furnace at Coalbrookdale. This later became the property of Abraham Darby (referred to as Abraham Darby I to distinguish him from his son and grandson of the same name.) After serving an apprenticeship in Birmingham, Darby had started a business in Bristol, but he moved to Coalbrookdale in 1710 with an idea that coke derived from coal could provide a more economical alternative to charcoal as a fuel for ironmaking. This led to cheaper and more efficient ironmaking from the abundant supplies of coal, iron and limestone in the area.
- D) His son, Abraham Darby II, pioneered the manufacture of cast iron, and had the idea of building a bridge over the Severn, as ferrying stores of all kinds across the river, particularly the large quantities of fuel for the furnaces at Coalbrookdale and other surrounding ironworks, involved considerable expense and delay. However, it was his son Abraham Darby III (born in 1750) who, in 1775, organized a meeting to plan the building of a bridge. This was designed by a local architect, Thomas Pritchard, who had the idea of constructing it of iron.
- E) Sections were cast during the winter of 1778-9 for a 7 meter-wide bridge with a span of 31 meters, 21 meters above the river. Construction took three months during the summer of 1779, and remarkably nobody was injured during the construction process – a feat almost unheard of even in modern major civil engineering projects. Work on the approach roads continued for another two years, and the bridge was opened to traffic in 1781. Abraham Darby III funded the bridge by commissioning paintings and engravings, but he lost a lot on the project, which had cost nearly double the estimate, and he died leaving massive debts in 1789, aged only 39. The district did not flourish for much longer, and during the nineteenth and early twentieth centuries factories closed down. Since 1934 the bridge has been open only to pedestrians. Universally recognized as the symbol of the Industrial Revolution, the Iron Bridge now stands at the heart of the Iron Bridge Gorge World Heritage Site.

1. The text has five paragraphs, A-E.

Which paragraph contains the following information? **Write the letter of the paragraph.** (05 marks)

- i) The use of River Severn for transportation purposes.
- ii) A method used to raise money for the bridge.

- iii) The recognition of the Iron Bridge as the first large cast-iron bridge in Europe.
- iv) Abraham Darby II, the pioneering figure who had the idea of building a bridge over the Severn.
- v) Darby found a low-cost and more effective method for the process of ironmaking.

2. Say whether the following statements are **TRUE/FALSE** or **NOT GIVEN**. (05 marks)

- i) The Iron Bridge was considered as the symbol of the Industrial Revolution.
- ii) The River Severn is not the longest navigable river in Britain.
- iii) Basil Brooke began the initial construction of the Iron Bridge.
- iv) Abraham Darby III funded the bridge by conducting various projects.
- v) The bridge was designed by a local architect.

3. Complete the following grid using the information given in the passage. (05 marks)

Year	Important Event/s
1638	
1710	
1775	
1781	
1789	

4. Find synonyms (words with similar meanings) from the passage for the words given below. (05 marks)

- i) Internship/training -
- ii) Finally -
- iii) Initiated -
- iv) Plenty of -
- v) Huge -

10. Write an essay on the topic given below. Word Limit 125-150 (25 marks)

The negative impact of social media on youth
